Mr. Roger W. Jones
Assistant Director
for Legislative Reference
Bureau of the Budget
Washington 25, D.C.

Dear Mr. Jones:

This is to acknowledge receipt of your referral of 26 July 1955 of a proposed bill to amend Section 921 of the Foreign Service Act of 1946 relating to commissary and mess services.

It appears to this Agency that it would be preferable to extend the authorities contained in this proposal to the heads of all Government agencies which are faced with this problem under such regulations as the President or the Secretary of State may prescribe. This would be analogous to the authority to issue regulations for Government-wide allowances under Section 901 of the Foreign Service Act of 1946. The problem which CIA faces is not the utilization of commissary or mess services established by the Department of State for employees of the Foreign Service which can then be used by employees of other Government agencies, but rather the establishment of such facilities in those places where they would not be warranted for the Foreign Service.

Appropriate language in the proposed bill should eliminate the problem of facilities in territories and possessions as distinguished from foreign areas generally. This problem is of particular interest in the Far East, where American employees on Okinawa are entitled to certain benefits available to employees in foreign areas, whereas employees in the islands of the Trust Territories do not receive such benefits because the islands are territories of the United States. Because living conditions in some territories and possessions are more difficult and the cost of living higher than in many foreign countries, it is felt that these benefits should be extended alike to foreign areas and the territories and possessions.

If the State Department proposals were to be broadened, the following suggestions would appear to be worth considering:

1. The use of the term "commissary" should be adequately defined. Under the military services, the term carries a much more restrictive definition than is currently the case in the Foreign Service where a commissary contains much broader facilities than are usual in the military commissary.

2. It is felt that the State Department proposals do not provide clearly for the disposition of profits of employee-run commissaries or mess services. It is our understanding that the last sentence of the proposal is designed to refer only to Government-operated commissaries or mess services and that the profits from such services when operated by the employees may be disposed of as they elect. We feel that this should be made clear in the proposed legislation.

3. The proposed amendment provides that space, facilities, material, stocks, supplies, and equipment or services may be made available to employee-operated commissaries or mess services. It is our understanding that the intent of this provision is to allow the Department to obtain such things through official channels when it may be easier than going through private channels. However, it does not appear to be clear whether such facilities will be available free of charge or through advancement of funds by the Department, or whether it simply provides a better channel to secure such facilities although they are paid for by the employee-operated commissary or mess.

4. In view of the fact that the existence of employee-operated services will reduce Government expenditures and improve employee morale, it is recommended that consideration be given to broadening this proposed legislation to authorize advances of Government funds for the purpose of establishing such facilities with reimbursement to appropriations for the advances.

5. It is our understanding that at the present time the State Department allows the use of available space free of charge for employee run facilities, whereas if additional space must be rented the activity pays for it from its own funds. It would appear preferable if this procedure were confirmed by statute or a new procedure delineated in the proposed bill.

CIA would consider it helpful if legislation were enacted which could include the above suggestions. However, it interposes no

objections to the State Department proposals in and of themselves,
although they would be of limited application to this Agency.

Sincerely yours,

Walter L. Pforzheimer
Legislative Counsel

SECTION 11		COMMENTS (From Original Addressee)	
TO : LEGISLATIVE COUNSEL OFFICE OF GENERAL COUNSEL		FROM: <i>Pers. Overseas 1-2</i> Office of General Counsel	

Several changes have been made in this bill since its submission. One of these changes is of interest to us. In Sec. 941 (b) providing for dependents' medical care the language has been changed to read "which requires hospitalization or similar treatment . . . " (Emphasis supplied). On page 9 of our analysis of the CIA Bill it is explained that medical care will be provided for illnesses ordinarily requiring hospitalization though the patient is not hospitalized since in many areas hospital facilities are unavailable or unsuitable. This same explanation was used by the Department of State; however, it seems that it was considered wise to make the liberalization specific in the terms of the law. We might consider making this change in what will appear as 5(d)(2)(b) of our Bill as amended.

MEMORANDUM FOR: Legislative Counsel

SUBJECT : Proposed Foreign Service Legislation

1. In an effort to determine any possible amendments to the Foreign Service Act, I called Mr. Edward Iyerly of the Legal Advisor's Office, Department of State. Mr. Iyerly is charged with the technical aspects of Foreign Service legislation and works very closely with Mr. Loy Henderson.

2. I was advised that the Department is presently putting the finishing touches on a bill which will be forwarded to the Bureau of the Budget on or about 13 January. The items in this bill are as follows:

a. Appropriate salary increases for career ministers and ambassadors.

b. Increase in the number of Foreign Service officer classes from 6 to 8.

c. Liberalization of the lateral entry provisions of Section 518 of the Foreign Service Act.

d. Increase from 30 to 35 years for the maximum number of years of service permissible in computing retirement annuities.

e. Amendment to Section 911 which pertains to travel and related expenses to permit payment of such expenses on a commuted basis. (Note: This apparently was part of an over-all bill passed by the Senate at the last session S.2569.)

f. Authorization to expend funds for establishment of commissaries.

g. Authorization to hire physicians and construct small emergency hospital facilities.

h. Authorization to expend Government funds for recreational facilities.

i. Authorization for the use of Government-owned cars for employees abroad for recreational purposes.

j. Liberalization of the provisions relating to conversion of Departmental Personnel to Foreign Service.

k. Amendments to Sections 941 and 942 to permit payment of medical expenses to dependents of employees. In this amendment the present proposal is to delete the phrase "line of duty" and to use words similar to "as a consequence of an assignment abroad". Mr. Iyerly further advised that this item had been discussed in the last session of Congress with both Senators Sparkman and Mansfield who favored such a provision.

3. Concerning the Overseas Allowances Act, Mr. Iyerly advised that it was the Department's policy that if the specific provisions in such bill were as broad as existing provisions of the Foreign Service Act, there would be no objection on their part to including the Foreign Service in the bill and repeal of the specific similar provisions in the Foreign Service Act. It appeared the Department was concerned, as we have been, over the timing aspects of the Overseas Allowances Act and their proposed amendments. However, Mr. Iyerly advised that it was Mr. Henderson's view as well as that of the Board of the Foreign Service that these items were desirable and necessary and that they would request the Bureau of the Budget and the Congress for such authority in the hope of securing legislation without attempting to depend on or wait for the passage of the Overseas Allowances Act.

4. Mr. Iyerly was requested to forward a final draft of their bill as it is presented to the Bureau of the Budget. Copies will be made available to interested offices of CIA when received.

5. In view of the fact that basic CIA legislation is substantially lifted from the Foreign Service Act and in some cases verbatim, we would do well to consider our approach to the Bureau of the Budget and the Congress on our proposed legislation. The desirability is suggested

of a meeting between representatives of this Agency (General Cabell or Colonel White) to review with Mr. Henderson our proposals and to see if any gain can be realized by combining forces to present our respective viewpoints to the Bureau of the Budget or the Congress.

SUBJECT: Proposed Amendment to the Foreign Service Act of 1946

REFERENCE: Your Memorandum Dated 26 August 1955 Addressed to AD/00, Comptroller and SSA/DD/S Subject as Above

1. The following are our comments on the proposed amendment to the Foreign Service Act of 1946.
 - a. The proposed amendment limits the authority of the Secretary to authorize and assist in the establishment of service facilities operated by employees of the Service to commissary and mess services. This limitation appears to be too restrictive and we are of the opinion that the amendment should be expanded to authorize the Secretary to assist employees of the Service in the establishment of other non-government personnel service facilities when such facilities are operated by the employees.
 - b. There is no provision in the proposed amendment for the disposition of profits earned by commissary or mess services which are operated by employees. We are of the opinion that the amendment should provide that all profits of facilities operated by employees shall be the property of its members. This change appears desirable in view of the possibility that, in the absence of such a provision, such profits may be considered to be quasi-governmental funds which must be returned to the United States Treasury as miscellaneous receipts.
 - c. The proposed amendment should provide authority for the establishment and operation of a revolving fund. This fund to be established by contributions from profits of employee operated facilities and to be available for financing the establishment or expansion of employee operated facilities when authorized by the Secretary.
 - d. The proposed amendment should be expanded to provide that space, equipment and services made available to employee operated facilities will be charged to the facilities on the basis of the increased cost to the government resulting from furnishing such items to these facilities.

2. The following are our views regarding the desirability of having similar legislative authority for CIA.
 - a. The Office of the General Counsel in a memorandum to the Deputy Comptroller dated 20 June 1955 states that the administration and operation of station messes and other service facilities can be justified legally only when such expenditures are necessary because of the peculiar functions of CIA.
 - b. In the absence of additional legislation CIA does not have authority to authorize and assist in the establishment of many types of personnel service and other facilities which would be operated by employees and which appear to be desirable for improved employee relationship.
 - c. Legislative authority to operate mess and commissary facilities and to authorize and assist in the establishment of messes, commissaries and other personnel service facilities which will be operated by Agency personnel would in our opinion be beneficial to this Agency. In time the establishment and operation of service facilities with private funds would tend to reduce CIA's cost of operation and would greatly improve the morale of employees on overseas tours of duty.

DEPARTMENT OF STATE

WASHINGTON

Dear Mr. Vice President:

There is transmitted herewith a draft of a proposed bill, "To amend Section 921 of the Foreign Service Act of August 13, 1946 (22 U.S.C. 1139) relating to commissary or mess services", which it is recommended that the Congress enact.

Funds have not been requested for Government operated commissary or mess services since the fiscal year 1951. In order to meet their needs for commissary or mess services, employees of the Foreign Service have established a number of cooperative, non-Government operated commissary or mess services financed by personal contributions. While this arrangement is very helpful to the employees of the Service, notwithstanding the fact that some of them have difficulty in participating therein because of necessary capital outlays, the Government also benefits considerably therefrom because of reduced post allowance payments and better employee relations.

In recent correspondence the General Accounting Office inquired about the authority for our employees to operate the non-Government commissary and allied services in the Paris Embassy, and raised a question whether funds accumulated through such operations are at least quasi-Government and whether they should be covered into the Treasury as Miscellaneous Receipts. In a decision dated March 3, 1953 (A-44014) the Comptroller General expressed the desirability of obtaining additional legislation to enable the Department to sanction officially non-Government operated commissary and allied services.

General Regulations No. 121 issued by the Comptroller General under date of January 21, 1955, instructs departments and agencies of the Government with respect to their responsibilities concerning the

use of

The Honorable
Richard M. Nixon,
President of the Senate

C O P Y

- 2 -

use of Government facilities by employees and the action to be taken in collecting for any unofficial use of such facilities. This regulation will make it extremely difficult for non-Government operated commissary or mess services to operate in the absence of the legislation proposed.

If enacted, the amendment would authorize the establishment and operation of non-Government operated commissary or mess facilities and enable the Department to assist them to obtain necessary space, including warehouse or storage space, utilities, material, supplies, equipment or services. It is contemplated that the regulations governing such operations would require reimbursement consistent with the various situations encountered.

In order to equalize commissary and mess charges to employees of all agencies serving abroad, because their post allowances are equal, the amendment would provide that charges abroad by a commissary or mess service of any Government agency shall be at the same rate for all civilian personnel of the Government serviced thereby, and that all charges for supplies furnished to such a service abroad by any Government agency shall be at the same rate as that charged civilian commissary or mess services of the furnishing agency.

It is not contemplated that the cost of operating the Foreign Service will be increased by the enactment of this bill. On the other hand, if the bill is not enacted, and existing commissary and mess services should be discontinued, the cost of operating the service will be increased considerably by reason of increased post allowance payments.

The authority for the establishment and maintenance of Government operated commissary and mess services is retained so that it may be used in the event of future necessity.

It is respectfully requested that you lay the proposed bill before the Senate. A similar bill is being transmitted to the Speaker of the House of Representatives.

Enclosure:

A proposed bill.

A BILL

To amend Section 921 of the Foreign Service Act of August 13, 1946 (22 U.S.C. 1139) relating to commissary or mess services.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That Section 921 of the Foreign Service Act of 1946 (22 U.S.C. 1139) is amended to read as follows:

"Section 921. The Secretary may, under such regulations as he may prescribe (a) establish and maintain Government operated commissary or mess services, or (b) authorize and assist in the establishment, maintenance, and operation, by employees of the Service, of commissary or mess services, at posts abroad, to be available to the officers and employees of all Government agencies and their dependents; space, facilities, material, stocks, supplies, equipment or services, may be made available. Notwithstanding the provisions of any other law, charges abroad by a commissary or mess service of any Government agency shall be at the same rate for all civilian personnel of the Government serviced thereby, and all charges for supplies furnished to such a service abroad by any Government agency shall be at the same rate as that charged by the furnishing agency to its civilian commissary or mess services. Reimbursements to appropriations are authorized."

84TH CONGRESS
2D SESSION

S. 3481

IN THE SENATE OF THE UNITED STATES

MARCH 19, 1956

Mr. GEORGE introduced the following bill; which was read twice and referred to the Committee on Foreign Relations

A BILL

To amend the Foreign Service Act of 1946, as amended, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*
3 That this Act may be cited as the "Foreign Service Act
4 Amendments of 1956".

5 SEC. 2. Section 411 of the Foreign Service Act of 1946,
6 as amended, is amended by striking out the second sentence
7 of that section and substituting in lieu thereof the following:
8 "The per annum salaries of chiefs of mission within each
9 class shall be as follows: Class 1, \$27,500 per annum; class
10 2, \$25,000; class 3, \$22,500; and class 4, \$20,000."

I

1 SEC. 3. Section 412 of such Act is amended to read as
2 follows:

3 "SEC. 412. There shall be ten classes of Foreign Service
4 officers, including the classes of career ambassador and of
5 career minister. The per annum salary of a career ambassa-
6 dor shall be \$20,000. The per annum salary of a career
7 minister shall be \$17,500. The per annum salaries of
